## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 04 March 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

## DETAILED ACTION

### *Claim Objections*

1. Claims 1 and 10 are objected to because of the following informalities:
  - 1) In claim 1, line 7: The term “transversally” should be changed to --transversely--.
  - 2) In claim 10, line 2: The number “1” should be changed to --2-- (in order to provide antecedent basis for the differentiated-elasticity zones recited in claim 11).Appropriate correction is required.

2. Claims 6-9 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claims. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

### *Claim Rejections - 35 USC § 102*

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002

Art Unit: 3673

do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 1-3, 5/1-5/3 and 10-12 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Pat. No. 6,675,500 to Cadamuro (note especially Figures 1-5B; column 2, lines 38-65; column 3, lines 11-43; and column 4, lines 13-29).

The applied reference has a common inventor with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

#### ***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 13-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cadamuro '500 in view of U.S. Pat. No. 6,241,695 to Dabir. Cadamuro '500 does not specifically disclose

Art Unit: 3673

a condition wherein the cushioning member is used in a seat, protective arrangement, mattress or pillow. Dabir '695 provides the basic teaching of a cushioning member (10) comprising a support surface (14) having a plurality of protrusions (22), wherein the cushioning member may be used in a seat, protective arrangement, mattress or pillow (as shown in Figures 4 & 5 and as described in column 5, lines 1-20). The skilled artisan would have found it obvious at the time the invention was made to incorporate the cushioning member of Cadamuro '500 into a seat, protective arrangement, mattress or pillow in order to impart enhanced comfort to various body parts of a user as desired.

#### ***Allowable Subject Matter***

7. Claims 4 and 5/4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The examiner respectfully asserts that none of the prior art, taken either singly or in combination, is seen to teach or suggest the particular fin structure as recited in claim 4.

#### ***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Casey et al. '825, Cadamuro et al. '529, Dabir '077, Dabir '153, Brown, Jr. et al. '177, Strumor '749, Hook, '510 and Forster '342.
